ELECTRICAL REMODELING NOTES

- o For kitchen cabinet replacement, please submit floor plan showing all devices new (N) and existing (E), GFCI's etc. Spacing shall comply with NEC 210-52 (C). See below.
- o Plans shall be signed and dated by a Florida Licensed Professional Engineer or a licensed Master Electrician (License number must be included).
- o If electrical work is needed in order to bring existing condition into compliance with current NEC requirements, then an electrical permit application must be submitted.
