<p><i>Description: Install a temporary mobile barricade system, inclusive of two twenty foot (20') wide chain-link swing gates ("Barricades") on the east side of the real property known as 7918 West Dr. The Barricades will consist of solid plywood fence sections permanently anchored into individual concrete bases. Each Barricade section will be 48" wide by 72" in total height. See the attached drawings. The Barricades will be installed along the east edge of the parking spaces adjacent to the east side of the subject property. The Barricade will not be permanently affixed to the roadway or to the subject property. The location of the Barricades will be fluid within the parking spaces and the property line. The components, or the entirety of the Barricades may be repositioned, as required, to meet the needs of the ongoing construction operations at the subject property. The Barricades can be placed in a safe position during a high velocity wind event. The screening system, currently on the existing fence (located on the subject property) will be affixed to the Barricade system, subject to periodic removal and reinstallation as the construction operations dictate.</i></p>
