ATTENTION CONTRACTORS

In order to protect you and your employees from injury and reduce your liability for damaging underground facilities when digging near underground facilities, you must do the following:

1. Call before you dig – Sunshine State One Call 811 or (800) 432-4770 within Florida, or submit a request online 24/7 at www.callsunshine.com.
2. Wait for the marks – Sunshine State One Call will notify all utilities with underground facilities, including FPL, to mark their locations within two full business days. Prior to excavation, visit www.callsunshine.com to verify the status of locates for each utility.
3. Protect the marks – All locate marks must remain visible during construction. If marks are destroyed, you must stop digging and contact Sunshine State One Call to mark the facilities again.

Digging should be done carefully, with increased caution in the tolerance zone (24 inches on either side of the locate marks).

For more information on Sunshine State One Call or to request a free (English/Spanish) guide to digging safely, visit www.callsunshine.com.

For information on working safely near power lines and equipment, visit the “Working Safely Near Power Lines” section of www.fpl.com/safety.
