Resolution to approve change order No. 1 to Stantec's Work Order 004, with revised scope, and an additional \$23,558 to fund the Lane Repurposing Study for improvements relating to the Lane Repurposing Project on 79th Street Causeway.

### **BACKGROUND AND ANALYSIS**

North Bay Village contracted Stantec Consulting Services to perform a Context Classification and Lane Repurposing study to support the implementation of improvements along the SR 934/79th Street Causeway. The project was approved through the current NBV General Engineering and Architectural Services contract - RFQ No. 2019-05, dated January 29, 2021. The consultant performs the study based on the Florida Department of Transportation (FDOT's) Lane Repurposing Guidebook, FDOT Design Manual (FDM), and FDOT's Context Classification Guide.

From preliminary submission of the Lane Repurposing study to FDOT and comments from their review, additional services are now required, which will expand the scope of services.
