

PROPER DISPOSAL OF OILS, TOXICS & HOUSEHOLD HAZARDOUS WASTE

NORTH BAY VILLAGE
HEART OF THE BAY

WHY PROPER DISPOSAL IS IMPORTANT

Many common household products such as motor oil, paint, batteries, cleaners, and chemicals are hazardous if disposed of improperly. When poured on the ground, into storm drains, or thrown in the trash, they can:

- Pollute canals, lakes, and groundwater
- Harm wildlife and natural habitats
- Create fire and safety hazards
- Damage plumbing and stormwater systems

The following materials must be properly disposed of at a certified hazardous waste facility or recycling site:

MOTOR OIL & VEHICLE FLUIDS

- Motor oil
- Antifreeze
- Brake fluid
- Transmission fluid

TOXIC OR HAZARDOUS HOUSEHOLD PRODUCTS

- Paints, solvents, varnish, and thinners
- Cleaning products & corrosive chemicals
- Pesticides and fertilizers
- Pool chemicals
- Aerosol cans
- Propane tanks
- Fluorescent/CFL bulbs
- Mercury-containing items

PROPER BATTERY DISPOSAL

- Nickel-cadmium (Ni-Cd) batteries
- Lead-acid batteries (car, boat, motorcycle batteries)
- Rechargeable batteries from tools, toys, and electronics

Your safe disposal choices help protect our community's environment and public health.

HOUSEHOLD CHEMICALS & ELECTRONICS DISPOSAL

NORTH BAY VILLAGE
HEART OF THE BAY

Important Update for Residents

North Bay Village no longer collects household hazardous waste at the Public Works Facility.

Due to the closure of the Public Works facility on Galleon Street, residents must now dispose of these materials through Miami-Dade County programs.

Residents are encouraged to use County-hosted mobile collection events or visit designated Miami-Dade County Chemical Collection Centers.

WHERE TO DISPOSE OF HOUSEHOLD HAZARDOUS WASTE

Miami-Dade County Chemical Collection Centers

Residents may drop off accepted materials at the following locations:

- **South Dade Home Chemical Collection Center**
23707 SW 97th Ave, Homestead, FL 33032
- **West Dade Home Chemical Collection Center**
8801 NW 58th Street, Doral, FL 33178

These facilities are free for Miami-Dade County residents and accept a wide range of household hazardous materials.

WHAT MATERIALS ARE ACCEPTED

Household Hazardous Waste

- Oil-based paints
- Pesticides and herbicides
- Pool chemicals
- Solvents and cleaning chemicals

Lighting & Batteries

- Fluorescent light bulbs
- Compact fluorescent lamps (CFLs)
- Unbroken fluorescent tubes
- Small lithium-ion and button batteries

Not accepted:

- Propane tanks (including those used for RVs, forklifts, or kitchen gas supply)

Electronics (E-Waste)

- Computers, monitors, keyboards, printers
- Hard drives and personal electronics
- Televisions, VCRs, audio and video equipment
- Cell phones and hand-held radios

Other Items

- Latex paint (limit of 5 gallons)
- Empty oxygen tanks
